power requirements:	115 Volts, 20 Amp Dedicated Circuit	
cable requirements:	Coaxial cable for Workout TV console	
in-club entertainment:	Cardio Theater® & BroadcastVision® Compatible	

QuickTouch Speed - Adjust speed from 1 to 12 MPH by simply touching a QuickTouch button, or scrolling in 0.1 MPH increments.

Incline - Adjust incline from 0 to 15% by scrolling in 0.5% increments.

Motor - Self-cooling 5.0 HP high-torque AC speed control motor provides smooth performance and requires no maintenance.

Treadbelt - 20" x 60" industrial 2-ply treadbelt is bonded with PVC for strength and is pre-lubricated for low friction, less maintenance and quiet operation.

Deck - Slikdek® is double coated with phenolic resin on both sides of the deck to last twice as long when flipped during general maintenance.

Serviceability - The belt and deck are designed to be serviced in 5 minutes and replaced in 30 to minimize product downtime.

Cushioning - BioStride® deck cushioning reduces noise and impact to joints.

Lift Motor - AC lift motor provides smooth incline and decline movement and stabilizes the deck.

Heart Rate - Pulse information can be displayed on the console via contact sensors or Polar® wireless telemetry.

Safety Key - Tethered, magnetic key safely shuts the machine off when removed.
